Signature of Applicant or Agent

1/9/21

TEMPORARY FILING NO. 37 6/212D

THIS IS TO CERTIFY that I have examined the foregoing application and do hereby grant the same subject to the following limitations and conditions:

This permit grants only the right to use the water available in the stream after all prior rights are satisfied.

This permit is conditioned on the holder of this permit securing and/or providing free and unencumbered access to this facility site to allow State Engineer personnel to perform their duties as prescribed by Law. These duties include, but are not limited to, construction inspections and water administration.

This permit is issued to make an existing facility a matter of record. The notice of completion of construction and completion of beneficial use is hereby waived.

This permit is granted subject to the terms of the Yellowstone River Compact, Wyoming Statute § 41-12-601. In the event the state of Wyoming must curtail its post-1950 water uses to comply with the Compact, the applicant shall use water under this permit only for household domestic uses as domestic use is defined by Article II(j) of the Compact, which may include irrigation of land not exceeding a well-defined one-half acre in area.

e time for completing the construction work slue time for completing the application of we propriation shall be made within 5 years thereast	ater to beneficial use sl	ner 31, 20, nall terminate on December 31, 20, and fine	ı <del>l proof of</del>

PERMIT NO. 36526

## PERMIT STATUS

Priority Date April 12, 2021

Approval Date \_\_\_April 16, 2021

## NOTICE

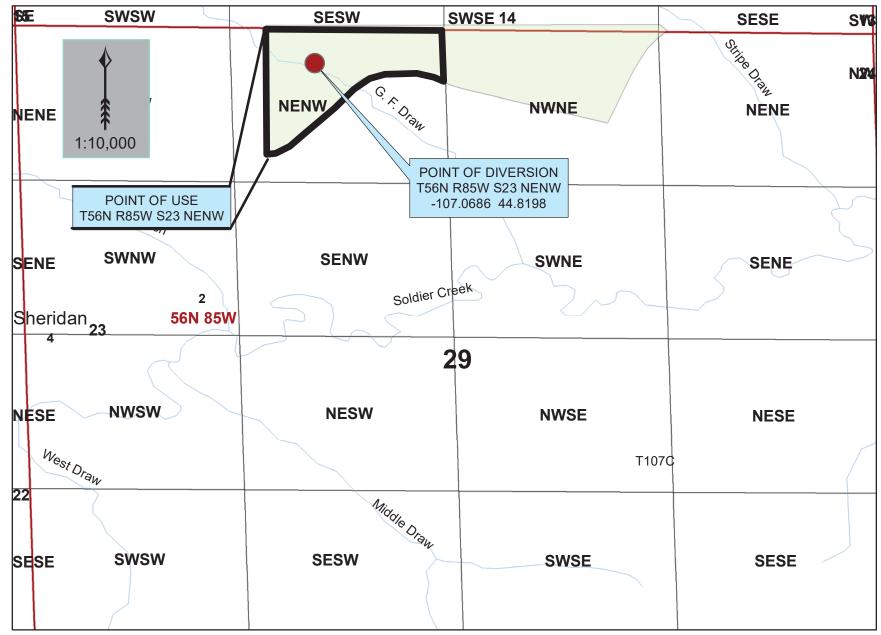

This permit, does not constitute a complete water right. It is your authority to begin construction work, which must be commenced within the time allowed in the permit.

Notice of completion of the work described in the permit, must be filed in the State Engineer's Office before the expiration of the time allowed in the permit.

If extensions of time beyond the time limits set forth in the permit are required, requests for same must be in writing, stating why the additional time is required, and must be received in the State Engineer's Office before the expiration of the time allowed in the permit.

Once the Notice of Completion has been filed, Proof of Appropriation will be prepared and sent to your Water Division Superintendent. The Superintendent will arrange with you for an inspection of the facility. Should you desire adjudication, the Proof will be considered by the Board of Control, and, if found to be satisfactory, the Board will issue to you a Certificate of Construction which will constitute a completed water right.

The granting of a permit does not constitute the granting of right-of-way. If any right-of-way is necessary in connection with the application it should be understood that this responsibility is the applicant's.

Domestic Use for domestic purposes only at the following point of use not to exceed .056 c.f.s. Watering of lawns/garden shall not exceed 1 acre. Applicant, Adam and Brenda Weatherby, are the landowners of the land described above as the place of use.

Approved: 4/16/2021
